

Retrophin to Present at the 8th Annual SVB Leerink Global Healthcare Conference

February 14, 2019

SAN DIEGO, Feb. 14, 2019 (GLOBE NEWSWIRE) -- Retrophin, Inc. (NASDAQ: RTRX) today announced that Eric Dube, Ph.D., chief executive officer, will present at the 8th Annual SVB Leerink Global Healthcare Conference in New York City on Thursday, February 28, 2019 at 3:30 p.m. ET.

A live webcast of the presentation will be available at ir.retrophin.com/events and an archived replay will be accessible for up to 30 days.

About Retrophin

Retrophin is a biopharmaceutical company specializing in identifying, developing and delivering life-changing therapies to people living with rare disease. The Company's approach centers on its pipeline featuring late-stage assets targeting rare diseases with significant unmet medical needs, including fosmetpantotenate for pantothenate kinase-associated neurodegeneration (PKAN), a life-threatening neurological disorder that typically begins in early childhood, and sparsentan for focal segmental glomerulosclerosis (FSGS) and IgA nephropathy (IgAN), disorders characterized by progressive scarring of the kidney often leading to end-stage renal disease. Research in additional rare diseases is also underway, including a joint development arrangement evaluating the potential of CNSA-001 in phenylketonuria (PKU), a rare genetic metabolic condition that can lead to neurological and behavioral impairment. Retrophin's R&D efforts are supported by revenues from the Company's commercial products Chenodal[®], Cholbam[®] and Thiola[®].
