

## **Retrophin to Present at the Barclays Global Healthcare Conference**

March 3, 2016

SAN DIEGO, March 03, 2016 (GLOBE NEWSWIRE) -- Retrophin, Inc. (NASDAQ:RTRX) today announced that Stephen Aselage, chief executive officer, will present at the Barclays Global Healthcare Conference in Miami on Thursday, March 17, 2016 at 1:35 p.m. ET.

A live webcast of the presentation will be available at <http://ir.retrophin.com/events.cfm> and an archived replay will be accessible for up to 90 days.

### **About Retrophin**

Retrophin is a fully integrated biopharmaceutical company dedicated to delivering life-changing therapies to people living with rare diseases who have few, if any, treatment options. The Company's approach centers on its pipeline featuring clinical-stage assets targeting rare diseases with no approved treatment options, including sparsentan for focal segmental glomerulosclerosis (FSGS), a disorder characterized by progressive scarring of the kidney often leading to end-stage renal disease, and RE-024 for pantothenate kinase-associated neurodegeneration (PKAN), a life-threatening neurological disorder that typically begins in early childhood. Research exploring the potential of early-stage assets, including RE-034, in several rare diseases is also underway. Retrophin's R&D efforts are supported by revenues from the Company's marketed products, Chenodal®, Cholbam® and Thiola®.
